SIZE GUIDE

MEN'S

1. Collar

Measure the collar/neck size around the base of the neck. Leave about a finger-width gap for comfort.

2. Chest

Measure around the biggest part of your chest, running the tape under the arms and across the shoulderblades.

3. Waist

Measure around the waist, wrapping the tape around the position where your trousers are usually worn. Leave about a finger-width gap to allow for comfort.

4. Inside Leg

Measure the inside of the leg from the crotch to the hem of your pants. Alternatively, lay a pair of your trousers on a table top and measure the same way.

LADIES

1. Bust

Measure around the chest, running the tape under the arms, around the fullest part of the bust and across the shoulderblades.

2. Natural Waist

Measure around the central part of the torso where the natural waistline sits (find the natural crease by bending to one side).

3. Low Waist

The low waistline sits approx 2 inches below your natural waistline. Run tape around this area to measure.

4. Hip

Measure around the fullest part of the top of the hips, keeping your feet together.
